

Inbox for JIRA

Inbox for JIRA delivers in-app notifications!

DATA CENTER APPROVED APP

Get a new menu that simply shows what issue you have been assigned, if a change has been made or if someone mentioned you in a comment without relying on emailing or setting up dashboards.

Inbox for JIRA is the add-on that solves just that and much more!

Release notes: [Release Notes](#)

Never miss to take action on an issue again. Get the plugin on [Atlassian Marketplace](#) today!

Are you switching between your mailbox and JIRA to keep up to date with what is happening?

Are you feeling that important issues are some times missed out?

Time to change that!

According to different studies, context switching can eat up to 40-80% of your productive time!!!

With Inbox for JIRA you can increase your productivity and remove the barriers by adding in-app notifications!

Inbox is located next to your avatar and is shown as a bell.

Get it today at Atlassian Marketplace [Inbox for JIRA](#)
